

Dear Valued Supply Partner,

Generac Power Systems, Inc. thanks you for agreeing to accept J.P. Morgan's Single-Use Accounts (SUA) electronic credit card payment program. We are excited about the opportunity to improve processes for both of our organizations and to strengthen our business partnership. We are strongly committed to achieving 100% participation from our valued suppliers with this program.

There are many benefits to your company when accepting payments this way, including:

- Shortest payment terms offered
- Reducing operational costs associated with paper check processing
- Speeding reconciliation by taking advantage of enhanced remittance information
- Eliminating the need to store sensitive payment information that could potentially be compromised since account numbers provided are valid only for a single use
- Enhancing your competitive position by offering customers greater payment choices, improving customer service, and creating a more efficient customer experience

Payment processing with SUA

1. You will receive the first seven digits of the account number. We recommend that you store this information for future use to process your payments.

2. Once we authorize payment, you will receive an email with the last nine digits and expiration date of the SUA account number for each payment. We recommend checking your company's spam filters to ensure that emails from no.replies@paymentnet.jpmorgan.com are not filtered (e.g., sent to junk folders) going forward.

3. Enter the full account number using the stored first seven digits, the nine digits provided in the email and other required information into your card payment processing system to authorize the payment.

4. The payment notification emails you receive will also contain a link that will allow you to sign up to receive J.P. Morgan Voltage SecureMail. Upon registration, you will receive all subsequent SUA payment notifications via SecureMail, which will include full account information (e.g. a complete 16-digit account number, card security code, and expiration date). You only need to sign up for SecureMail once. If you receive SUA payments from other J.P. Morgan clients, you will also receive those payments via SecureMail.

Please note the following important information:

- Interchange fees from your credit card company may apply.
- If you have any questions when you receive your first payment, please contact askap@generac.com
- To update your payment notification email address, please contact askap@generac.com
- If you choose to transfer to another payment method in the future, the standard payment terms in effect at that time will apply.

Thank you for your participation in this program.

Sincerely,
Joseph S. Kavalary
Vice President & Treasurer
